GENDER AND DEVELOPMENT IN INDIA: DIMENSIONS AND STRATEGIES

New Century Publications, New Delhi, 2008. Hardcover. Book Condition: New. First. 14 cms. 276pp. Ensuring gender parity has become a great challenge for the modern world. Gender equality forms part of development strategy in many countries of the world including India. When both men and women have equal access to services and resources, enjoy equal rights, and get equal opportunities to develop skills and capabilities then the development of the country is fast and balanced. The volume has emerged from the research papers contributed by social scientists and academicians from different parts of India, focusing on specific gender-related issues. Both primary and secondary data have been used by the authors to analyse the problems and conclude with suggestions. The main themes which the volume covers are: agriculture and gender development, micro credit financing and women empowerment, role of Self-help Groups (SHGs) and NGOs in socio-economic development of women and health and education of women.
