Changes in refraction may continue for several months. The aphakial eye presents, besides hyperopia and loss of accommodation, a deep anterior chamber and usually a tremulous iris; the images PROGNOSIS IN CATARACT EXTRACTION. 199 normally seen on the anterior and posterior surfaces of the lens are absent. Prognosis. --A. favorable result and useful vision follow cataract extraction in the great majority of uncomplicated cases (ninety-five per cent. ); there is very often excellent sight, and occasionally perfect vision. The prognosis is dependent not only upon skilful operation, but upon careful selection, and upon exclusion of those complicated cases which cannot be improved by an operation, no matter how successful. Hence it becomes important to diagnose properly the condition of...
