

Time-Travel Math: An Advanced Geometry Adventure for Grades 4-5

By Amy Bernstein

Prufrock Press. Paperback. Book Condition: New. Michelle M. Fariss (illustrator). Paperback. 120 pages. Dimensions: 10.8in. x 8.2in. x 0.4in. How can we use math to draw human figures with the right proportions? Can math help us to create beautiful and enduring works of art? What can we learn from the ancient Egyptians about area and perimeter? These are some of the questions that students will ponder as they travel back in time with fictional math whizzes, Harriet and Thomas, and join Leonardo da Vinci, Dutch artist M. C. Escher, and ancient Egyptian architect Imhotep, on a quest to answer a timeless riddle: How can we solve everyday problems using math? Time-Travel Math takes an innovative approach to teaching gifted math students advanced geometry concepts by weaving an adventure-filled story with entertaining practice problems that require deep mathematical thinking. Students will engage in advanced abstract inquiry and will explore new geometry topics such as ratios, angles, regular polygons, symmetry, and area through a combination of challenging written worksheets and hands-on activities. Time-Travel Math includes fully reproducible worksheets that students can use individually or in groups, as well as detailed rubrics for teachers. This item ships from multiple locations. Your book may arrive...

Reviews

Completely essential read ebook. It is among the most awesome book i actually have read. I am very happy to explain how this is basically the greatest book i actually have read in my individual existence and might be the best pdf for possibly.

-- Prof. Alexandro Runolfsson

It is one of my personal favorite books. It is written in easy terms and never hard to understand. It has been designed in an exceedingly easy way and it is only after i finished reading this publication by which in fact changed me, change the way i think.

-- Lucinda Stiedemann
