Center of the Universe Publishing Company, Incorpo, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.In order to completely understand an event one needs four things. A list of components involved, their source, how constructed or consumed, and all facets of the outcome; all in a user friendly, logically sequenced language with diagrams where called for. That s what we find in *The Big Bang Book* by Sven, based on 18 years of unrestricted research, allowing access to all new findings. Usually it takes an outsider, to incorporate what may seem to be, many unrelated events into the new understanding and that s what is in this book. Everything significant is included and fully documented employing the latest replicable physics reported by impeccable organizations such as NASA, the Stanford Linear Accelerator Center, the Space Telescope Science Institute and other equivalent research centers. Their latest findings are generally reported in conference proceedings, various news Medias and the many books covering new physics available to all interested persons. The only material used in this Big Bang analysis is that physics that can be repeated, demonstrated, or observed over and over again in glorious 3d. The language employed can be assimilated by anyone who is interested and can follow a beginning course in a basic general science program given at a freshman high school level. This Big Bang Book describes the KEY found to solving How the Big Bang started. That KEY incorporates atoms, that have an unbelievable life span noting that all atoms were created during the Big Bang era, made into a match that when struck sends off light photons at 186,282 miles per second with instant velocity. With that KEY we are able then to describe Where...
