Reviews

This book is fantastic. This is certainly for all those who statte there had not been a really worth reading. It is extremely difficult to leave it before concluding, once you begin to read the book.

Brand New Book ***** Print on Demand *****.Do you believe there are patterns in the financial markets that can be taken advantage of? What if you could see patterns in the financial markets that less than 1 in 1000 day traders were aware of? I ll never forget the first time I (Richard) lost significant money in trading. It was early 2010 and I bought TLT after it had taken a significant run up. After I bought it, it began to decline almost daily for the next month. When the pain was more than I could bear, I sold it, locking in what for me was a huge loss. To pile on, not long after I sold it, TLT reversed course and began to rise. Why did I buy TLT when I did? Because of certain things I saw in the charts, and macroeconomic considerations. I was very wrong. Our background is physics, and physicists like to understand what s going on underneath the hood when they observe a system evolving. For things like the stock market and bonds, economics seems to be a place to start. But this is often only true in the long run, and as Keynes said, In the long run, we re all dead . So to prevent the TLT fiasco from happening again, we decided to answer the question, Is there a systematic way to profit in the financial markets, using an algorithm, so that the computer tells us when to buy and sell? At least it would alleviate some of the emotional burden, and maybe even produce profits. This is our motivation, remove emotion and discretion from trading, while simultaneously being profitable. The approach we have taken...
